Class Descriptions

YOUNGERS:

- *Elements of Art: Students will learn about and create art using the fundamental elements of art: line, shape, color, value, texture, form, and space*
- *Kitchen Cabinet Science: Grab a plate and dig into 50 exciting science projects that use everyday kitchen items!These Experiments are safe, easy, and (sometimes) tasty.*
- *Literacy Through Geography: Students will strengthen their reading, writing, and comprehension skills while learning about landforms and other countries.*

OLDERS:

- *Drawing: Students will be gently guided to find the artist inside each of them.*
- *Critical Thinking Skills: Using the Mind Benders Series®, students will improve deductive reasoning, reading comprehension skills, and organized analysis skills.*
- *Kitchen Cabinet Science: Grab a plate and dig into 50 exciting science projects that use everyday kitchen items!These Experiments are safe, easy, and (sometimes) tasty.*
