Descriptions--

Garden Science 101-Ms. Cassie will teach our 5-8th grade students gardening basics including a hands on installation of a raised bed, hay bale, potato frame, and other explorations in gardening, soil science, temperate zones, and nutrition.

Book Club & Storytelling -Ms.Cassie will guide students through a book club format of reading a book (some at home with parent(s) help), journal writing, creative writing and Lego storytelling lessons.

Storytelling Through Short Film -Ms. Colette will be leading students through an exploration of the process of developing an idea, creating a story and putting it in a short film.

Kuk Sol Mr. Rick will be teaching martial arts basics along with conditioning, games and movement activities. Etiquette, form, cooperation and teamwork will be emphasized.

Literacy & Math Workshop-Ms. Jen will teach TK-1 st grade students phonemic awareness, phonics, early reading and writing skills as well as math games developing number sense, counting, spatial skills and numeracy. There will be hands-on, make and take activities for classes.

Music- Lauren will guide TK-1st grade students through beginning music theory and voice. Songs, rhythm, and games will be practiced.

Science & Nutrition- Ms. Jenny will take students on a journey of the human body studying body systems, major organs and leaning about the important role food plays in keeping our bodies healthy.
